

PREPARATION OF FAMILY TREE

(PLEASE READ INSTRUCTIONS BEFORE FILLING OUT)

A family tree is used to diagram family history so you can see where problems are in each generation. Begin at the bottom of the family tree, fill in your name and your spouse's name, and any problems you have (if divorced, insert your previous spouse's name, too). Do the same with your children, your parents and your brothers and sisters. Continue in this way up the family tree, as far as you can remember, indicating any patterns or problem areas in your family line. Some of the problems are obvious, others are known only to God. Don't worry about what you do not know. Jesus will reveal what you need to know, and what He reveals He will heal. If you were adopted you may have only a minimal amount of information regarding your biological family. In that case, include whatever information you have, as well as any pertaining to your adopted family.

Some traumas may be healed through generational healing prayer without your knowing their exact cause. In some cases, it may be necessary for prayer for the Healing of Generations to be repeated several times. The following instructions provide some ideas to help prepare your family tree.

Below are some of the common areas of generational bondage or sin that may help jog your memory and make a more complete picture of your family line. Remember to ask the Holy Spirit to reveal His Truth, knowing that He may give you an area that is not listed below.
